THEIR WORK-BENCH  
FOR PAINS, ACHES AND  
SORE MUSCLES.  
THERE IS NOTHING SO  
GOOD. RUB IT IN WELL.

The LINIMENT of our  
Forefathers.

## KING IS ARRESTED ON ANOTHER CHARGE

Accused of a Violation  
Of the Edmunds  
Act

Warrant Sworn Out By  
U. S. District Attor-  
ney Alexander

(From Saturday's Daily.)  
Another chapter was opened yesterday afternoon at 4:30 in the case of John Harvey King, the man who is accused of enticing Miss Nellie Weiss of San Bernardino into a mock marriage in this city on the 16th of October last, and afterwards living with her for three months, and introducing her as his wife in Ash Fork and Winslow, when the gay deceiver was arraigned before United States Court Commissioner J. M. W. Moore, on the charge of fornication under the Edmunds act, preferred by United States District Attorney J. L. B. Alexander of Phoenix.

The arraignment took place in the office of the court commissioner on Cortez street, to which place the prisoner was accompanied by Under Sheriff W. M. Neagle, who is also a deputy United States marshal.

Attorney Leroy Anderson appeared for the defense, while the interests of the United States in the case were looked after by Assistant District Attorney H. D. Ross.

After the complaint and warrant were read over by the prisoner and his counsel, the contents of which provoked the same suggestive smile on the countenance of King that was such a prominent feature at his hearing before the justice of the peace on Monday afternoon, the preliminary examination was set for hearing at 10 o'clock on Wednesday next, to allow the defendant time to get his witnesses to this city, as well as his attorney, Henry W. Nisbet, from Los Angeles.

King looked dapper and gay, and his every action indicated that he had no fear of a conviction at the hands of the United States authorities of the crime with which he stands accused.

In default of \$1,000 bail he was remanded to the county jail, but his attorney stated that the bail asked for would be forthcoming tomorrow in the shape of a \$1,000 cash bond.

## ARCHAMBEAU GOES TO HUNT BIG JAGUAR

Beast Is Prowling In  
The Burro Creek  
Section

Said To Be An Animal  
Of Abnormal  
Size

(From Saturday's Daily.)  
Ever on the alert for an exciting encounter with big game, after receiving a telephone message from C. C. Stukey, who is developing a mining property in the Burro creek section, that a large jaguar was seen earlier in the day prowling around the mountain fastnesses in the vicinity of his camp, Joe Archambeau, proprietor of the Winsor cafe, left on the southbound last evening for Hillside station, from whence he will start at daybreak on horseback to chase the creature to earth.

He was accompanied by J. W. Hobbs, who also enjoys a wide reputation as a lion hunter and a dead shot. In the baggage car were Archambeau's two keen scented hounds, which have bay-

ed at many lions up a tree, and have been the heroes of many hairbreadth escapes at the claws of the ferocious brutes they have chased to earth for their huntsman master.

From the information received from Stukey, it appears that the jaguar in question is one of the largest ever seen in these parts, and Archambeau and Hobbs expect to be led a merry chase after the dogs have raised the scent. The animals are said to be not as easily treed as those of the mountain lion tribe, and are said to be more dangerous than the latter to the hounds dauntless enough to engage them in combat.

## BATHES HIS BEES.

John Robinson Puts a Damp on His  
Honey-makers.

(From Saturday's Daily.)  
Yesterday at noon as clerk of the board of supervisors Robinson arrived at his home on Mount Vernon street, he noticed a commotion in his beehive, and on closer examination found that the bees were about to swarm. He hurriedly procured a bucket of water, and sprinkled all showing a disposition to emigrate, after which he placed the old brood in a new hive, where at last accounts the workers had already commenced to build a home.

Bee culture is becoming a popular hobby among Nob hill residents, and Mr. Robinson, being one of the pioneers of the business, is considered an authority on all matters in the bee line.

## HOSPITABLE ODD FELLOWS GIVE DELIGHTFUL DANCE

Over 400 people availed themselves of the hospitality of the Odd Fellows at their hall last evening in the celebration of the eighty-seventh anniversary of the institution of the order. The hall was crowded far beyond its seating capacity in the early part of the night, while over 175 couples tripped the light fantastic to the sweet strains of Mrs. B. H. Smith's orchestra. A large crowd of those who did not care to take part in the dance or look on passed the pleasant hours in the banquet room, where a smoker was held, cards and other games indulged in.

Prescott lodge, which is the oldest of the order in the territory, was founded in the later sixties, starting out with a membership of seven, which has since swelled to 175, the lodge now owning one of the largest hall buildings in the city valued at \$35,000.

The members of the sister lodge, the Rebekahs, to the number of 100 were almost all present, and contributed more than their share to the evening's amusement and entertainment.

## STRIKE OF NATIVE COPPER ON THE EDWARDS' PROPERTY

It was learned from a reliable source yesterday that J. R. Edwards, who is operating the properties of the Commercial Mining company in the Copper Basin district, under lease, struck a large body of native copper ore associated with a deposit of cuprite ore on Thursday last.

Mr. Edwards has been making regular shipments of copper ore of a medium grade to the plant of the Arizona Smelting company at Humboldt, for the past few months, and the new discovery is but one of a number that have been made in this district, which has long been noted for its large copper ore deposits, within the past few years.

## RICH HARQUA HALL MINES SOLD FOR \$250,000.

(From Thursday's Daily.)  
Word reached this city yesterday of the sale of the bonanza Harqua Hala mines near Harrisburg in Yuma county to Michigan parties. The consideration was not learned, but it is known to be in the neighborhood of a quarter of a million dollars. The mines were discovered in the latter 80's, and for a number of years astonished the entire west by their gold output. Some of the richest gold specimens ever seen in the territory were mined from its treasure vaults.

**TO START MULE RANCH.**  
John L. Munds and Tod Reese are gathering a large bunch of horses and mares in the Walnut creek and Camp Wood country recently purchased from the stockmen of these districts to place on a large ranch and range in the Grand Canyon of Arizona section, where Mr. Munds proposes to start a mule ranch.

## PORTER INDICTED ON PERJURY CHARGE

Vice-President Of A  
Bisbee Bank In  
Trouble

Case Grows Out Of A  
Recent Sale Of  
Cattle

(From Saturday's Daily.)

Indicted on a charge of perjury, J. N. Porter, who is first vice-president of the First National Bank of Bisbee, and well known in this city, by a large number, was Monday brought into the district court at Globe and after giving a bond of \$3,000, was released.

Porter was indicted by the Gila grand jury in connection with a case that was tried some time ago in Tucson, in which he was one of the parties, the case being over the sale of a ranch and bunch of cattle.

With several others, Porter was involved on one side against Fred Olson, who had owned the property before the deal was made. It is charged that in this case Porter either swore falsely or made what is claimed to be a perjured affidavit.

When brought into court and his bond fixed, Porter had no difficulty in raising \$3,000. He is president of one of the Globe banks, and has interests all over the territory.

Reports from Globe are that he claims to be able to prove without difficulty that he committed no perjury, as has been charged in the indictment.

It is stated that the bill against Porter was found last Saturday, but not made public until yesterday, though for what reason has not been stated. Porter was in Globe, and there was no likelihood of his attempting to make his escape.

Reports from Globe are that the people of that city generally believe that Porter will vindicate himself when the matter gets into court.

## Deaths from Appendicitis

decrease in the same ratio that the use of Dr. King's New Life Pills increases. They save you from danger and bring quick and painless release from constipation and the ill growing out of it. Strength and vigor always follow their use. Guaranteed by all druggists. 25c. Try them.

## CLIMAX GROUP IS ABOUT TO BE SOLD

Indiana Man Will Buy  
A Cherry Creek  
Property

New Stamp Mill May  
Be Running In  
60 Days

Although not a matter of record, it was learned from a reliable source late last evening that all arrangements were completed yesterday for the transfer of the title to the Climax group of mines in the Cherry creek district from J. R. Boyer to J. H. Tribby of Indianapolis, and his associates.

Part of the consideration of the deal was a cash payment which will be made within a few days as soon as minor questions of title are settled, when active development work will be at once commenced, and vigorously pushed under the superintendency of the former owner, Mr. Boyer, who has agreed, it is said, at least for some time, to take charge of the new company's affairs on the ground. A stamp

mill has been purchased which will be immediately erected at the camp, and which it is expected will be in running order within the next sixty days. The mill will be run by water power, of which there is an unlimited supply developed on the premises, thus eliminating entirely the cost of fuel, always a great consideration in the operation of a reduction plant, as well as the cost of boilers and engines and the wear and tear of same.

The Climax group of mines, consisting of six claims, is situated in the Cherry creek district of the Black Hills range, about 15 miles east of Dewey, and about one mile east of the Arizona Gold Lode mines, immediately north of and adjoining the Lion group of claims, both of the latter properties being of proven merit.

The survey for the proposed Humboldt and Verde Valley railroad passes through the camp, and excellent mining timbers can be secured on the ground and in the adjoining mountains, which are covered by a heavy growth of pine.

Four shafts sunk to a depth of 50 feet, with a number of shallower openings constitute the principal development work on the properties. These openings are sunk on a network of veins, which follow with more or less varying regularity, a granite and porphyry contact along which the claims are located, exposing veins of ore in width from one to five feet, carrying average values, according to the report of a conservative mining engineer, who recently made an expert examination of over \$24 to the ton in gold.

**Chamberlain's**  
**Cough Remedy**  
The Children's Favorite  
Coughs, Colds, Croup and Whooping Cough.  
This remedy is famous for its cures over a large part of the civilized world. It can always be depended upon. It contains no opium or other harmful drug and may be given as confidently to a baby as to an adult.
